

# JavaScript Basics

By Udemy

14/06/2020 (Completed Course and Earned Certificate for the same)

Today I completed **JavaScript Basics** Course

In that I learnt,

- Introduction to JS
- How to write programs
- How to open a console
- Connect JS and HTML
- Variable
- Math Operations
- Working with Arrays and Strings
- Writing Comments
- Conditional and Logic Operators
- Prompt and Confirm
- Modifying HTML with JS
